# ETHEREAL NOCTIS

Introducing Ethereal Noctis, a color destined to become a classic. An unprecedented leap forward in design, sustainability and innovation, developed with HybriQ+ technology, that takes the concept of marbled colors to a new dimension.

Intricate black nuances add contrast and elegance to the palette. Grey details on a textured background with short veins gives the color depth.

Shown with NEW Ethereal Noctis Top

# CALA BLUE

Imagine the first time you see the sea and its breeze embraces you. The feeling of floating in its immensity. Away from worries, letting the sun and water bathe your skin. Savoring the salt as it envelopes your body. The sound of waves breaking on the shore, see the infinite horizon. A unique touch that caresses the skin just like the sea.

Those sensations resonate with Cala Blue. A deep, modern blue that simulates the balance between the depth and the surface of the sea when interacting with light. A mature color that vibrates with the rest of the elements, complementing the space it inhabits. Let yourself be rocked by the Mediterranean.
